(31) 9.11.

Note.

(28) (29) and (30) should be discussed with F.S.N. for his suggestions in detail. The file should then be taken to Nablus for discussion with D.C. who should have the whole position in mind in view of possible complaints from the inhabitants to the Administration.

2. At first sight it seems that this is another case where claimants must be asked to put up with the present state of affairs until Land Settlement. D.L.S. says that Settlement is not expected during the next few months, which may mean that it will not be too long delayed.

10.11.43 (32) C.F.

Note. On 12.11.43. I showed (31) to FSN who agreed that this was the only course to be pursued.
2. It will now be necessary to see DC Sam. as early as possible. 15/11.

(33)

Note.

On 20.11.43 I discussed this problem with D.C. Samaria. He understood that Land Settlement was planned for Northern Tulkarm in 1944. It seemed likely to him that D.L.S. might be persuaded to settle Azzoun, when the Settlement party arrived in Tulkarm.

SFO/ Any observations on the proposal to refuse lime kiln licences except for wood obtained from cultivated lands.?

2. It has occurred to me that we could permit grazing of cattle (horses + donkeys in closed cactus areas (where pasturage experiments have not been done). What do you think.?

F.J. 28/II.

(9)

D.D.

I agree to the proposal to refuse lime kiln licences except for wood obtained from cultivated lands.

2. I cattle horses + donkeys are permitted in the closed area their owners will be permitted too. this will cause difficulties.

3. It may be better to make a survey of both areas select the better one for grafting in the near future + open the other for grazing

22/2

(10)

From J. R. Tulkarm, d/ 2.3.35, with (10a).

(11)

D.D.

Proposal I agree + other villages who have grazing rights in these F.Rs should I think continue to graze there - Grazing should be prohibited only in the cactus closed F. Areas.

FSD/22/23.

30th October, 1947.

Acting Conservator of Forests.

Subject:- Aczoun Forest Reserves.

I enclose copy of a report by Forest Ranger, Nablus.

2. I shall inspect the area at the first opportunity, and then submit draft redeclaration as necessary.

John Hayward.
Assistant Conservator of Forests,
Southern Division.

JDF/RS.

C O P Y.

Assist. Conservator of Forests,
Southern Division,
Jerusalem.

Subject:- Azzoun Forests Reserves
No. 44. Tul-Karem Sub-District.

I beg to refer to your verbal instruction, on your last visit to Tul-Karem office, in respect of Azzoun Forests reserves and closed area, and to state that on 19.10.47 I inspected the above named areas according to the Forest map No.498 and found the following:-

1) Plots nos. 1,2, & 3 are rocky lands, and no vegetation grown there except some shrubs of Poterium, and they are srrounded by cultivated lands of the Jayyus & Qalqilya.

2) Plots Nos. 4 & 5:- The most of the area in these two plots is cultivable lands, there is some shrubs of Poterium and Calycotome scattered on the lands, and there is a well and a threshing floor in the middle of Plot No.5.

Othman Abou Maryam of Azzun and his partner claimed an area of about 65 dunums from this plot, which was inspected by Forest Inspector South.

3) Plots Nos. 6, 7 & 8:- Part of these plots is rocky and the vegetation grown there is Poterium, calycotome and Pistacia.

4) Plot No.9:- The most of the land in this p lot is rocky, the vegetation grown there is Pistacia, Carob, Quercus, Poterium, Rahmnus and "Ghilan". The closed area is situated within this plot, and this the best plot which I found in Azzoun Forests reserves, but it need strong protection.

5) Plot No.10:- The land is rocky and some shrubs of pistacia are growing on this plot.

6) PlotsNos. 11 & 12:- The area is too small and part of it is cultivable, some shrubs of pistacia are growing on the lands.

7. On the light of the above description I suggest the following:-

a) to declare plot No.9 as Closed Forest area after making some amendment on its boundaries, which will be shown to you on your next visit to Azzoun forests, in order to exclude some small patches of lands no need for them.

b) to declare plots Nos. 6.,7, 8 and 10, if you find suitable, as forests reserves.

c) to cancel the reservation of the remaining plots.

For any action you may deem necessary, please.

Date 3/9/47.

Forest Inspector "Lands"

Jerusalem.

Subject:- Azzun Forest reserve no. 44, claimed by Khalil Hamad Adwan of Azzun village Tul-Karem Sub-District.

Reference:- Attached application.

on 1.9.47 I inspected the land claimed by the applicant, in his presence and found the following:

1.- The area claimed is about 6 dunms situated within Rlls. nos. 123, 124, 125 & 1/B.

2.- The land is a slop planted with fig, carob and olive trees. The fig, carob and a part of the olive trees give produce, & some of the produce is still on the trees, the age of these trees is about seven years.

3:- The claimant owned a land planted with big olive trees abutting the area claimed by him from the east and the north.

4:- From the record of this Dept. I found that the applicant was prosecuted twice for his encroachment upon the said area, the first case was on 31/7/44, in which ordered the accused to give an undertaking for Lp. 50 to do not encroached upon the reserve pending the final decision of settlement. The second case was on 8/3/45 in which ordered the accused

P. T.O.

to pay Rp. 10.- & to leave the land encroached upon.
5:- from the position of the land you can be satisfied that the applicant encroached this area at least from 1940 or 1941. and no cases raised against him except the two mentioned cases, and no cases raised against him in the year 1946 & 1947, i.e. during the ploughing season, Moreover the judgement delivered against him on 8/3/45 not executed, and the area still under the possession of the applicant.

For your information and for any action you may deem necessary. Please.

K. Kaffar
Forest Ranger

File No. F. 8/A/18

53a

Note on Azzun Forest Reserve No.44.

All forest areas within the village boundaries of Azzun village, Tulkarm Sub-District, were proclaimed as a Forest Reserve under Serial No.44 in 1926 (Gazette No.161 of 16.4.26).

2. Part of the reserve on both sides of Wadi el Manassif was taken up for a Carob Budding Area in 1934. It was proclaimed for the purpose as a Closed Forest Area under the names Safiah Manassif and Dahr Manassif in Gazette No.472 of 18.10.34.

3. Both above proclamations were made prior to any demarcation and mapping of the areas involved. They were based on a general reconnaissance of the areas and rough estimates of their extents.

4. A detailed demarcation of the above reserve was first carried out by this Department in 1940, in conjunction with a survey of the village lands of Azzun for land settlement purposes carried out at that time by the Department of Surveys. The forest boundaries have been marked and separated from the surrounding cultivation without exception as found at the time of demarcation. As a result, undoubtedly due to a great extent to opening up of forest lands after the reserve proclamation in 1926, the demarcation in 1940 revealed not one continuous forest area as originally proclaimed but 12 isolated plots, separated from each other by cultivated lands, covering aggregately 3674 dunams.

5. The forest boundaries as demarcated were pointed out to the land settlement surveyors for record of forest claims in the Registration Block maps. No further action appears to have taken place since towards the actual settlement of the demarcated forests.

6. Attached are 3 maps

(i) village map of Azzun showing the approximate position of Azzun Forest Reserve as originally proclaimed, in as much as it is possible to identify and locate it from the general description of its boundaries in the proclamation and from descriptions of the nature of lands in the map which was prepared by the Department of Surveys only 2 years or so after the proclamation.

(ii) A map showing the boundaries of the Closed Forest Area in the reserve as nearly as possible in accordance with the description of boundaries contained in the closure proclamations.

(iii) Map showing the forest areas as demarcated in 1940.

The Director of Land Settlement stated today on the telephone that whereas he possesses a map 1/200000 showing Azzoun Forest Reserve running to the western boundary of Azzoun village, another map which was submitted for the Anglo-American Enquiry Committee shows certain discrepancies, while the demarcation of Azzoun Forest Reserve made in 1926, shows the western boundary of Azzoun Forest Reserve as somewhere in the middle of the village lands. Please let me have a note on the discrepancies with a sketch plan of the actual blocks of Azzoun Forest Reserve, for the information of the Director of Land Settlement.

27 March 1945

(48)

(34)

Sir,

I am directed to refer to your letter dated the 4th December 1944 and 31st January 1945 regarding a plot of land falling within the Azzun Forest Reserve no.44, and to inform you that you may still, if you so desire, avail yourself of the opportunity of establishing any rights which you allege to have, under the Land (Settlement of Title) Ordinance when settlement operations commence in that area.

I am,
Sir,
Your obedient servant,

for sgd. Rukn Abdulhadi
ACTING CHIEF SECRETARY.

Khalil Eff. Ahmad Adwan,
'Azzun village,
Tulkarm sub-district.

(48

12th March, 1945.

8/A/18.

CHIEF SECRETARY.

Subject :- Azzum Forest Reserve No. 44 - Petition by Khalil Ahmad Adwan of Azzum Village, Tulkarm Sub-District.

Reference:- YourL/1/5/44 of 20.12.44 and 20.2.45.

Forest Reserve No. 44 was demarcated in 1940 in conjunction with a survey for land settlement purposes which was being carried out at that time in the area. All cultivated lands, without exception, as found at the time of demarcation, have been excluded from the forest. Sometime after the demarcation the petitioner encroached upon an area of about 5 dunums within the demarcated forest in which he planted some trees. A case was raised against him on 6.2.44. As a result he was ordered by the Magistrate, Tulkarm, to vacate the plot encroached upon and to give an undertaking for LP 50.- that no further use will be made by him of it pending decision of Land Settlement as to its ownership. A copy of the undertaking is attached hereto.

2. Land Settlement operations in the area, as far as known, are still at an early stage. The applicant may still, if he so wishes, avail himself of the opportunity to establish any rights he pretends he has to the plot claimed by him. His request for the grant of the plot to him on Bedl Misl cannot obviously be considered at present, until after land settlement operations have been completed when such a request might eventually be dealt with by a State Domain Inspection Committee.

3. No building exists on the plot in question. It is understood that the petitioner owns other land in the village.

Khalil Ahmad Adwan of 'Azzun village, Tulkarem Sub-District, in a petition addressed to His Excellency the High Commissioner, states that he had received His Excellency's reply to his letter dated the 4th December, 1944, in respect of his land which was taken by the Conservator of Forests. Pending His Excellency's decision in the matter, he submits the following representations:-

1) The land in question is not of the "Mawat" category, but is planted with fruit trees.

2) The land is the only source of his living.

3) The land is registered in the Land Registry Offices in the name of his father.

4) A building was constructed on the land since the Ottoman regime.

5) In case it is considered as "Mawat", he is prepared to take it and pay "Badal Al-Misl".

Petitioner requests that an enquiry be made particularly for the purpose of ascertaining the age of the trees.

He requests that he may be informed of the Government's decision at the earliest possible convenience to enable him to attend to the trees.

Subject :- Azzoun Forest Reserve No. 44.

Khalil Ahmad Adwan of Azzoun village applied to Government seeking to be granted a plot of land planted with different kinds of trees which according to his statement he inherited from his parents. He further states that the said plot forms the only means of livelihood of his family, that it was claimed by the Department of Forests and consequently registered at Land Settlement in the name of Government.

2. The plot in question evidently forms part of the Azzoun Forest Reserve and I shall be glad if you will let me have your observations on the matter, especially with regard to the dates at which the applicant encroached upon the forest and opened the plot, whether he was prosecuted and if so, give particulars about cases raised against him.

3. Please treat the matter as urgent.

Reference:- Our conversation of 20.11.43.

District Commissioner,
Samria District.

28, 29, 30

I attach copy of correspondence with the Director of Land Settlement and the Division Officer, Northern Division, on the subject of a complaint by the villagers of Azzun. You will see that the Director of Land Settlement requests me to refrain from any action which might affect Government's claim to parts of the Reserve. I shall be glad if you will explain to the villagers that the final decision on their claims must be left till Land Settlement, as the matter is now out of the hands of this Department.

2. As you suggested in conversation, you might be able to prevail upon the Director of Land Settlement to settle Azzun when his Settlement party arrived in Tulkarm. You will notice that Azzun has been surveyed and that it is adjacent to Habla village which has already been Settled.

Tulkarm Sub-District.

Reference:- Your F/8/A/18 of 22.10.1943.

Azzun has been surveyed but I do not expect that it can be put under settlement during the next few months. I suggest that you should do whatever you can under the Forest Ordinance to protect the declared Forest Reserve as such but I do not think that your officers should do anything which might appear to be an admission by a Government officer that part of the reserve is privately owned or that a private claim to it is reasonable or well-founded. This might later debilitate Government's claim to the land.

HAIFA.
13th May, 1943.

CONSERVATOR OF FORESTS.

Subject :-Azzun Forest Reserve No.44-Azzun village-Tulkarm S/District.

The demarcation of the above reserve was carried out by this Department in April, 1940, in conjunction with a survey of the village lands of Azzun, for settlement purposes carried out at that time by the Department of Surveys, for the purpose of recording forest claims in the Registration Block maps. It appears that no further steps have been taken since for the actual settlement of the demarcated forests.

2. After the demarcation a complaint was received at this office from several inhabitants of Azzun, claiming that some cultivated and cultivable areas belonging to them had been included within the demarcated forests and asking for their exclusion from the forests and for permission to cultivate the land.

(28a)

3. Forest Inspector "Lands" examined the claims on the spot in November, 1941. A copy of his report on the matter is attached hereto.

4. In view of the fact that the claimants and the District Administration, ~~Jenin~~ Nablus, are now pressing for a definite reply, I propose that an enquiry be made at the Department of Land Settlement whether they intend to take up the settlement of Azzun village lands in the near future, say up to the end of 1943. If so, the claimants will be advised to await the results of Land Settlement. Otherwise it would seem necessary to tackle the matter at closer hand and find out what could be arranged in an amicable way with regard to those claims which are reasonable and well founded.

DIVISION OFFICER.

Subject :- Inspection on Azzoun Forest Reserve.

Assistant Conservator of Forests,
Northern Division, Haifa.

On 19.11.41 I have inspected the abovenamed Forest Reserves and found that there are parts of the claims which are reasonable. The claimants suggested to make amicable agreement with the Department for the settlement of these claims. There was no sufficient time to inspect all the lands claimed, but most of them were seen. It will be convenient that the suggestion may be dealt with in case that the Settlement Officer will not start investigating in this village during the near future.

Director of ~~Surveys,~~ Land Settlement.
Director of Agriculture and Forests.

Petitioners :- Ahmad Ibn Qasim Abu Kharrub and Abdel Halim Mustapha Shahwan for Hable village. Tulkarm Sub-District, representing the rest of the owners in the family.

We and the rest of our members in the family possess a plot of land adjacent to Hable village and registered in the Tabo registers in the names of our testators. When this plot was surveyed it was divided into two blocks Nos.7628 and 7629 - Khallet Jayyus and Qitaat er Ras. During the registration the Government claimed these two blocks are Mahlul lands and asked for their registration.

The case in before the Settlement Officer who decided it. We appealed and the decision was annulled and a decision was given. Due to disturbances and other reasons we did not appeal.

The Settlement Officer, said in his decision that we have the right to ask the Government for Badl Misl the possession and registration of the cultivable lands. Therefore, owning to our bad need to these lands, we ~~ex~~ request that a commission be appointed to lay out a report in respect of the cultivable part of these lands and be given to us as a reasonable Badl Misl. In case these would be an uncultivable parts it should be afforested and given to the village to be benefited out of it.

We write to you because we understood that both your honours are concerned in thewe two blocks and it is intended to have them afforested.

We beg to draw your attention to the fact that we are more than 100 souls in number and are out of land from which we secure our livelihood.

23 thumbprints and signatures.

Rec'd 7 = OCT. 1940
File No. F/

اننا وباقي افراد عائلاتنا نملك قطعة ارض قريبة من قرية حبله مسجلة في سجلات الطابو التركية على مورثينا ، عند ما حضرت التسوية قسمت هذه القطعة الى بلوكين نمرة ٧٦٢٨ و ٧٦٢٩ ـ خلة جيوس ـ وقطعة الراس ـ عند التسجيل ادعت الحكومة بان هذين البلوكين من الاراضي المحلولة وطلبت تسجيلها عليها .

القضية امام سعادة مامور التسوية فصل بها واستأنفنا وفسخ الحكم واعيدت الاوراق ثم صدر حكم وبسبب الثورة واسباب اخرى لم نستانف .

ان سعادة مامور التسوية قد ذكر في قرار حكمه بان لنا الحق ان نطلب من الحكومة لقاء بدل مثل امتلاكها الاراضي التي تفلح وتسجيلها علينا ، لهذا وبنسبة احتياجنـــا الشديد وعدم وجود اراضي كافية لنا ، نطلب تعيين لجنة لاجل وضع تقرير عن القســم الذى يفلح من هذه الاراضي واعطائها لنا ببدل مثل معقول . وان وجد قسم غير صالح للزراعة عمل احراش به حتى تستفيد القرية من ذلك .

اننا نكتب لسعادتيكما لاننا علمنا بان هذين البلوكين من اختصاصكما وتوجـــد محادثات لعمل احراش هناك ،

ونود ان نلفت نظر سعادتيكما الى ان قسما كبيرا من افراد عائلاتنا بدون ارض يعيشون منها وعددنا يزيد عن المائة نسمه تقريبا .

واقبلوا احتراماتنا ـ ١٩٤٠/٩/٢٧

Subject :- Azzun Forest Reserve.

A Mazbata was submitted to me from the Mukhtar and Elders of Azzun village - copy attached- applying to stop grazing in all forest reserves - as pastures in the lands of their village is sufficient for their flocks and for their neighbours' cattle who are accustomed to graze therein.

I consider that if a ~~mountain~~ hill from the forest reserves is left to them, there will be trespasses on it from the inhabitants of Khirbet Assaleh, who do not like to stop grazing in these two mountains i.e. the forest reserves.

P.G. № 472
d/ 18. 10. 34

FORESTS ORDINANCE, 1926.

NOTICE OF DECLARATION OF CLOSED FOREST AREAS, UNDER SECTION 13.

J. HATHORN HALL
Officer Administering the Government.

IN EXERCISE of the powers vested in the High Commissioner by section 13 of the Forests Ordinance, 1926, the Officer Administering the Government hereby declares that the Forest Reserves described in the schedule to this notice shall be Closed Forest Areas.

Name of Area: Safiah Manassif.

Approximate area in metric dunums: 800.

Position: A part of Azzun Forest Reserve No. 44 declared in Official Gazette No. 161 of 16.4.26 within the boundaries of Azzun village, Tulkarm Sub-District.

Boundaries: The boundaries are demarcated by whitewashed loose stone cairns and by two Notice Boards bearing the inscription "Closed Forest Area" in English, Arabic and Hebrew.

North: Starting from a stone cairn situated in the Khallet Rhilani at the end of a steep draw the boundary proceeds eastwards until it reaches the ridge of Safiah Manassif; thence it follows the latter as far as a Notice Board situated in Wadi Manassif.

East: From that Notice Board the boundary proceeds south-westwards along the edges of cultivated lands on the western slope of Wadi Manassif as far as a Notice Board located in the junction of Wadi Esla.

South: From the above junction the boundary proceeds westwards along the edges of cultivated lands on the northern slope of Wadi Esla as far as a Notice Board located in the junction of Wadi Esla and Khallet Rhilani.

West: From the above Notice Board the boundary proceeds northwards along the edges of cultivated lands on the eastern slope of Khallet Rhilani as far as the abovementioned stone cairn.

Name of Area: Dahar Manassif.

Approximate area in metric dunums: 700.

Position: A part of Azzun Forest Reserve declared in Official Gazette No. 161 of 16.4.26 within the boundaries of Azzun village, Tulkarm Sub-District.

Boundaries: The boundaries are demarcated by whitewashed loose stone cairns and by two Notice Boards bearing the inscription "Closed Forest Area" in English, Arabic and Hebrew.

North: From a Notice Board situated on the eastern slope of Wadi Manassif the boundary proceeds in an easterly direction along the edges of cultivated lands of Dahar Manassif as far as Ashlul El Batta.

East: The boundary proceeds south-eastwards along the Ashlul El Batta as far as a Notice Board.

South: From the abovementioned Notice Board the boundary proceeds south-westwards along the edges of cultivated lands on the northern slope of Wadi Esla as far as the junction of that Wadi and Wadi Manassif.

West: From the abovementioned junction the boundary proceeds north-eastwards along the edges of cultivated lands on the eastern slope of Wadi Manassif as far as a Notice Board.

FT/29. 13.1.35.

Deputy Director.

Subject :- Azzun Forests.

Reference:- Your F/8/A/18-2539
dated 10.12.34.

No. of Licences	Goats	Sheep	Kilns	Kantars	
6	36	350	-	-	Kalkiliyeh Villagers.
8	348	15	2	92	Azzun Villagers.
1	40	-	-	-	Labad Villagers.
1	60	-	-	-	Farun Villagers.

After referring to the records and books the above number of licences and of cattle were found to have been authorised during the last 12 months.

I have proceeded to Azzun village and met the Mukhtar and Elders. After discussion they all declared that their complaint was merely submitted to stop strangers' cattle to graze in the lands of their village. I then obtained a Mazbata from them (copy attached) showing the villages in which they had the right and the habit to graze their cattle and where they used to extract their domestic requirements. I then explained to them on that day that we can neither authorise their cattle nor strangers' cattle to graze in forests where carob trees have been budded and in which notice boards were fixed prohibiting any grazing or trespass, and that at the present time we do not license any strangers, except those in the habit of grazing, to graze in the Azzun forests, unless there is great need to do so.

Lime Kilns.

I consider that it is very necessary to stop issuing licences to burn kilns from trees, as this operation requires a lot of trees, whereby the disappearance of forests and the lack of pastures, especially as we are encouraging the people to afforest, and because the Azzun village does not possess sufficient forests for this purpose.

If you concur in the above, please issue the necessary instructions for this purpose.

The inhabitants will then be authorised to extract their requirements of forest produce from cultivated lands only, also from bushes.

(Sgd) Othman Hammouri.

FOREST RANGER TULKARM ZIBRON.

Director of Forests
thro D. Officer, Tulkarem

Subject: Our village Forests - Azzoun.

I beg to point out that the forests of our village Azzoun have become bare of growth due to the large number of kilns burning in the forests. This leads to the scarcity of pasture and thus effects our animals. If exploitation is continued at this rate for another year all our animals will starve and die. We therefore beg you to instruct Forest Ranger, Tulkarem, to stop the issue of licences for kiln burning for at least a year and a half to allow trees to grow, then our animals will be able to benefit of the pasture. We wrote to the Forest Ranger, Tulkarem, in this respect but have had no reply. We also beg you not to allow grazing of strangers cattles in our forests.

(2)

Tulkarm Forestry Office

4 SEP 1934

Deputy Director,

Jerusalem.

Subject: Azzun Forest Reserve No. 44, Closed Forest Area.

Carob budding operations started in the Azzun Forest Reserve previous to my taking-over the District on April 15, 1934.

2. On April 25, I inspected the area and noticed that the budded wild carobs were sparce and widely distributed over the area.

3. According to your orders re submission of boundary lines of proposed closed forest areas I proceeded to the Reserve on July 27, accompanied by Forest Guard, Tulkarm , the ghaffir of Ras Amer and the boundary lines were indicated by me according to the budded areas and within those boundaries as indicated by the Forest Reserve Proclamation in the Official Gazette No.161 of 16-4-1926. During that inspection labour was contracted for the erection of stone cairns on the boundaries.

4. Soon after the boundary demarcation started petitions were sent by several villagers and by the village as a whole stating that their cultivated lands owned by rights of cushans were included within the boundaries of the Closed Forest Area. The District Officer passed the petitions to me. To clear the matter up I stopped the boundary demarcation and requested the villagers to present their claims. On inspection of the presented cushans I noted that the boundary line of the proposed Closed Forest Area did not encroach privately claime lands.

5. In discussing the matter with District Officer, Tulkarm, on August 2, I suggested that I might go over once again with the Mukhtars over the boundaries and record any claims on the spot. The District Officer agreed to the suggestion and wrote to the claimants accordingly.

6. On August 23, I met the Mukhtars of Azzun and most of the claimants and all of us went over the boundaries. After some minor adjustments of the boundaries the Mukhtars agreed to the boundaries shown and in evidence of that agreement they wrote and signed a statement to the District Officer (a copy of which is attached). We only disagreed with regard of land claimed by Ahmed Abdelkarim Kraim of Azzun. I could not agree to the exclusion of that land from the Closed Forest Area because it has not been cultivated permanently and the last cultivation

appears to be 6 to 7 years ago. (The Mukhtar confirmed this observation). I further stated that I shall refer the matter to my Senior Officer for his decision.

6. ~~Because~~ Since all parties agree to the boundaries shown, except with regard to the disputed plot within the forest, orders were given to proceed with the cairn erection. Anis Rabah, ghaffir of Ras Amer Plantation has been shown the boundaries and will superwise the cairn erection.

A. Kahar
